

## Dr Xavier is invited speaker at RAMCE – Regenerative Aesthetic Medicine Conference & Exhibition 2023 in London.

Dr Xavier was part of a distinguished line-up of speakers at this year's Regenerative Aesthetic Medicine Conference and Exhibition (RAMCE) in London at the NOBU Hotel Conference Centre.

RAMCE is a ground-breaking event that brings together leading experts, innovators, and injecting professionals in the field of regenerative aesthetics.

The conference gives a platform for this growing area of Regenerative Medicine and is hosted by DermaFocus, a leading manufacturer of polynucleotides for skin and hair regeneration.

**Dr Xavier was speaking at the conference about combatting hair loss with polynucleotides as well as joining the panel to talk about the future of regenerative medicine.**

As the demand for regenerative procedures continues to grow, RAMCE offers a unique opportunity for practitioners to delve into the latest breakthroughs and techniques that are shaping the future of aesthetic medicine.

**Dr Xavier says:** *"Polynucleotides are a very important advancement in the treatment of skin ageing and hair loss. With a trusted safety profile, coupled with great results their future is very exciting!"*
