

Dr Xavier speaks at AUCC – Aesthetics United Charity Conference 2023 in London on 11th November.

Aesthetics United is a non-profit organisation founded on the promise of bringing together members of the aesthetics community to learn, grow and importantly, to raise money for charities recognised for their significant contribution towards solving current issues impacting our world.

Dr Xavier was invited to speak about assessing and understanding the importance of skin quality in Aesthetic Medicine on behalf of platinum sponsor Galderma, one of the largest providers of aesthetic products to clinics in the UK.

Dr Xavier delved into the artistry of skin rejuvenation and the indispensable role that Restylane Vital and Vital Light SkinBoosters play in elevating skin quality to new heights.

Set across 3 stages, AUCC 2023 showcases an impressive speaker line up. Delegates can engage in a day of professional development which includes live demonstrations and interactive sessions with some of the industry's leading medical aestheticians.

Dr Xavier remarks: *"It was such a privilege to speak at this esteemed event. In the world of aesthetic medicine, the pursuit of timeless beauty goes far beyond surface appearances. The true essence of a youthful and radiant appearance lies in the quality of one's skin!"*
