PROFHILO®

**TISSUE REMODELLING
IMPROVEMENT OF SKIN QUALITY**

EVERYONE IS A MASTERPIECE

IBSA
Caring Innovation

WHAT IS
PROFHILO®

NAHYCO®
HYBRID TECHNOLOGY

IT IS
HYALURONIC ACID AT ITS BEST

Developed with IBSA's patented NAHYCO® technology, PROFHILO® contains one of the highest concentrations of hyaluronic acid and delivers a prolonged efficacy without the addition of cross-linking chemical agents.

IT IS
QUALITY & SAFETY BY DESIGN

ULTRAPURE hyaluronic acid in compliance with European and FDA standards.

IT IS
BIOCOMPATIBLE

Integrates into the tissue where it restores the levels of hyaluronic acid naturally found in the skin.

IT IS
EFFECTIVE

Clinical data confirm improvements in skin texture, elasticity and hydration with an immediate tightening effect.

IT IS
NON-INVASIVE

A specially developed injection technique reduces pain, downtime and the number of treatment sessions, making it the perfect lunch-time procedure.

THE FAST AND EASY WAY TO HEALTHIER SKIN

PROFHILO®

Bioremodelling with an immediate tightening effect

A new anti-ageing approach

Bioremodelling is an innovative
approach to anti-ageing which
counteracts skin laxity
of the face and in areas traditionally
difficult to treat, such as the neck,
décolleté, hands and arms.

Preferred by patients:

★ ★ ★ ★ ★

Reduced number of
treatment sessions

★ ★ ★ ★ ★

Reduced number of injection
sites, therefore reduced
discomfort per session

★ ★ ★ ★ ★

Reduced or eliminated
downtime

★ ★ ★ ★ ★

Optimal results visible
after only 2 treatments*
(1 month interval)

* Results and number of sessions depend on the degree of ageing
and treated area.
